This chart will allow up to 16 racers to compete for lowest points to determine the winner. Each racer's name is placed in one of the blanks at the left side of the sheet. They will race as the car number adjacent to their name. There will be four primary rounds plus any run-off heats as necessary. After the each heat place the score or place of each car next to the car number (first place is 1 point, second place is 2 points, third place is 3 points and fourth place is 4 points). After the fourth heat add each car's scores. The lowest is the winner. If there are any ties a tie-breaker race will determine the final place for those racers. Race each tie-breaker separately. This chart will insure that each racer will race on a different lane each time and will face new racers each time as well. 16 races total.

- First Place \_\_\_\_\_
- Second Place \_\_\_\_\_
- Third Place \_\_\_\_\_
- Fourth Place \_\_\_\_\_
